## SECTION 5 Firefighting measures

Suitable extinguishing media	This product itself is not flammable.
Unsuitable extinguishing media	No data available
Specific hazards	Since the said product contains P in its molecules, resulting in gases such as phosphorus oxide being contained in combustion gas, take precautions not to inhale smoke during fire extinguishing.
Specific extinguishing methods	Carry out fire extinguishing work from the windward side. If there is a fire in the surrounding area, move containers that can be moved to a safe location promptly. To prevent an increase in temperature of surrounding facilities, etc., cool the periphery using a water spray. Take appropriate measures so that substances that affect the environment do not flow out due to drainage from fire extinguishing.
