# OH-5(B, C, E, EU, F, H, I, M)

rev. 8.0 Date of Issue 2013/10/16 Revised Date 2024/3/15

SECTIO	N 1 Chemicals and company ident	ification
	Product name	OH-5(B, C, E, EU, F, H, I, M)
	Product code	EO06-2
	Company name	CANON OPTRON INC.
	Address	1744-1, Kanakubo, Yuki-shi, Ibaraki-ken, 307-0015 Japan
	Section name	Sales Department
	Telephone number	+81-296-21-3700
	Fax number	+81-296-21-3770
	Emergency telephone tumber	+81-296-21-3700
	Use	Vacuum deposition material

#### SECTION 2 Hazards identification

GHS Classification (A classification by JIS Z 7252 "classification methods such as chemical substances based on GHS")

Physical hazards	Explosives	Classification not possible
	Flammable gases	Not applicable
	Aerosols	Not applicable
	Oxidizing gases	Not applicable
	Gas under pressure	Not applicable
	Flammable liquids	Not applicable
	Flammable solids	Classification not possible
	Self-reactive substances and mixtures	Classification not possible
	Pyrophoric liquids	Not applicable
	Pyrophoric solids	Classification not possible
	Self-heating substances and mixtures	Classification not possible
	Substances and mixtures which,in contact with water,emit flammable gases	Classification not possible
	Oxidizing liquids	Not applicable
	Oxidizing solids	Classification not possible
	Organic peroxides	Classification not possible
	Corrosive to metals	Classification not possible
Health hazards	Desensitize explosives	Classification not possible
	Acute toxicity(oral)	Classification not possible
	Acute toxicity(dermal)	Classification not possible
	Acute toxicity (Inhalation: Gases)	Not applicable
	Acute toxicity (Inhalation: Vapors)	Classification not possible

CANON OPTRON INC. SDS Number: EO06-2 Product Name: OH-5(B, C, E, EU, F, H, I, M)

# SAFETY DATA SHEET

rev. 8.0 Date of Issue 2013/10/16 Revised Date 2024/3/15

	Acute toxicity (Inhalation: Dusts and mists)	Classification not possible
	Skin corrosion/irritation	Classification not possible
	Serious eye damage/eye irritation	Classification not possible
	Respiratory sensitization	Classification not possible
	Skin sensitization	Category 1
	Germ cell mutagenicity	Classification not possible
	Carcinogenicity	Classification not possible
	Reproductive toxicity	Classification not possible
	Reproductive toxicity, effects on or via lactation	Classification not possible
	Specific target organ toxicity(single exposure)	Classification not possible
	Specific target organ toxicity(repeated exposure)	Classification not possible
	Aspiration hazard	Classification not possible
Environmental hazards	Hazardous to the aquatic environment Short-term(acute)	Classification not possible
	Hazardous to the aquatic environment Long-term(chronic)	Classification not possible
	Hazardous to the ozone layer	Classification not possible

Signal word

May cause an allergic skin reaction.

Dangerous goods hazard information

Precautionary statements

[Safety measures]

Avoid breathing dust/fume/gas/mist/vapours/spray. Contaminated work clothing should not be allowed out of the workplace. Wear Protective glovess/protective clothing/eye protection/face protection.

### SAFETY DATA SHEET

rev. 8.0 Date of Issue 2013/10/16 Revised Date 2024/3/15

【First-aid measures】	IF ON SKIN: Wash with plenty of soap and water. Specific treatment . If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.
[Storage]	-
【Disposal】	Dispose of contents/container in accordance with national regulations.
【Other hazards】	-

#### SECTION 3 Composition/information on ingredients

Substance/Mixture	Mixture	
Chemical name	Zirconium oxide	Titanium oxide
Chemical formula	ZrO2	Ti2O3
Concentration or concentration range	ZrO2 : 88- 94% Ti2O3 : 6- 12% Total = 100%	
CAS No.	1314-23-4	1344-54-3
TSCA Inventry	Zirconium oxide (ZrO2)	Titanium oxide (Ti2O3)
EINECS number	215-227-2	215-697-9
Radioactive information	Radioactive substances are not us reason that ionizing radiation would	sed as the material. Therefore, there is no d be generated.
SECTION 4 First aid measures		
Inhalation	Remove person to fresh air and keep comfortable for breathing. Get medical advice/attention if you feel unwell.	
Skin contact	Take off immediately all contaminated clothing. Rinse affected areas with water/shower. IF ON SKIN:Wash with plenty of soap and water. If skin irritation or rash occurs: :Get medical advice/attention.	
Eye contact	Rinse cautiously with water for se present and easy to do. Continue of If eye irritation persists : Get medic	
Ingestion	Rinse mouth. Get medical advice/attention.	
Most important symptoms and effects, both acute and delayed	No data available	
Protection of first aiders	Rescuers, wear suitable protective	e equipment as the situation demands.
Special precautions for physicians	No data available	

EO06-2

# OH-5(B, C, E, EU, F, H, I, M) SAFETY DATA SHEET

SECTIO	N 5 Firefighting measures	
	Suitable extinguishing media	This product itself is not flammable.
	Unsuitable extinguishing media	No data available
	Specific hazards	No data available
	Specific extinguishing methods	In the case of a fire in the periphery, the portable container is quickly moved to a safe place.
	Special protective equipment for firefighters	Wear suitable protective equipment (gloves, glasses and a mask) in fire-fighting.
SECTIO	ON 6 Accidental release measures	
	Personal precautions, protective equipment, and emergency procedures	Protection equipment (specified as those in which the properties of the product are suitable) worn during operation so that airborne droplets, etc., do not adhere to the skin and dusts and gases are not absorbed.
	Environmental precautions	The leakage may not directly flow into rivers or sewage.
	Methods and material for containment and cleaning up	The leaked material is scooped up, or swept up and gathered to be recovered in a paper bag or a drum. After recovery, a small amount of the residue is absorbed in sediment, sawdust, etc.
	Secondary disaster prevention measures	No data available
SECTIO	ON 7 Handling and storage	
	Precautions for safe handling	
	Technical measures	Take measures for equipment as described in "8. Exposure controls/personal protection" and wear protective equipment.
	Safety handling precautions	Handling work must be practiced in a room where there is a local or total ventilation facility.
	Avoidance of contact	Refer to "10. Stability and reactivity."
	Hygiene measures	Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.
	Conditions for safe storage, including any incompatibilities	
	Safe storage conditions	Store in a well-ventilated place. Keep container tightly closed. Should be stored separately (AI, Ca, Mg, K, Na, Zn, and Li) with strong acids, metals. Store locked up.
	Safety packaging material	No data available

#### CANON OPTRON INC. SDS Number: EO06-2 Product Name: OH-5(B, C, E, EU, F, H, I, M)

## SAFETY DATA SHEET

rev. 8.0 Date of Issue 2013/10/16 Revised Date 2024/3/15

	<u>ZrO2</u>	<u>Ti2O3</u>
Permissible concentration		
ACGIH	TLV-TWA: 5 mg/mੈ TLV-TWA: 10 mg/mੈ (as zirconium and compound, zirconium) (2015 version)	No data available
Appropriate engineering controls	Use sealed devices, equipment, or a local e possible.	xhaust ventilation as much as
Individual protection measures, such as personal protective equipment		
Respiratory protection	Dustproof mask	
Hand protection	Protective gloves	
Eye/face protection	Dust-proof glasses	
Skin protection	Protective clothing	
SECTION 9 Physical and chemical proper	ties	
Appearance		
Physical state	Solid	
Form	Pellets, granules	
Colour	Ash gray or black	
Odour	None	
	<u>ZrO2</u>	<u>Ti2O3</u>
Melting point/freezing point	2,680°C (Merck(15th,2013))	Decomposed at 2130 °C
Boiling point or initial boiling point and boiling range	4300°C	No data available
Flammability	No data available	No data available
Upper/lower flammability or explosive limits	No data available	No data available
Flash point	Noninflammability (GESTIS (2015))	No data available
Auto-ignition temperature	Noninflammability (GESTIS (2015))	No data available
Decomposition temperature	No data available	No data available
pH	No data available	No data available

### SAFETY DATA SHEET

Solubility		
Water	Insoluble	Insoluble
Other solvents	No data available	No data available
Partition coefficient: n− octanol∕water	No data available	No data available
Vapour pressure	No data available	No data available
Density and/or relative density	No data available	2.8~3.2
(Density)	% 4.3 or more (pellet) as OH-5 B	
Relative vapor density	No data available	No data available
Particle characteristics	No data available	No data available
Other information	No data available	No data available
SECTION 10 Stability and reactivity		
	<u>ZrO2</u>	<u>Ti2O3</u>

	<u>ZrO2</u>	<u>Ti2O3</u>
Reactivity	No data available	No data available
Chemical stability	No data available	It is stable in storage conditions and normal handling. It is TiO2 by reacting with oxygen and heated to 300 °C than in air.
Possibility of hazardous reactions	No data available	Do not react in the storage conditions and normal handling.
Conditions to avoid	No data available	No data available
Incompatible materials	No data available	No data available
Hazardous decomposition products	No data available	No data available

### SECTION 11 Toxicological information

	<u>ZrO2</u>	<u>Ti2O3</u>
Acute toxicity(oral)	No data available	No data available
Acute toxicity(dermal)	No data available	No data available
Acute toxicity (Inhalation: Gases)	Solid (GHS definition)	No data available
Acute toxicity (Inhalation: Vapours)	Solid (GHS definition)	No data available
Acute toxicity(Inhalation: Dusts and mists)	No data available	No data available
Skin corrosion/irritation	No data available	No data available

### CANON OPTRON INC. SDS Number: E006-2 Product Name: OH-5(B, C, E, EU, F, H, I, M) SAFETY DATA SHEET

rev. 8.0 Date of Issue 2013/10/16 Revised Date 2024/3/15

Serious eye damage/irritation	No data available	There is a possibility that irritates the eyes, the skin and the respiratory tract.
Respiratory or skin sensitization	The classification is not possible due to lack of data. Besides, in DFGOT vol. 12 (1999), zirconium and its compounds are classified as a respiratory sensitizer from the information on zirconium and other zirconium compounds, but this substance was classified as "Classification not possible" due to no information on the substance. It is reported that this substance causes Granulomatous skin reactions in humans (DFGOT vol. 12 (1999)). In DFGOT vol. 12 (1999), zirconium and its compounds are classified as a sensitizer (Sah). From the above, this substance was classified in Category 1.	No data available
Germ cell mutagenicity	No data available	No data available
Carcinogenicity	As described in this hazard class for zirconium (CAS number: 7440–67–7), ACGIH classified zirconium and its compounds in A4 in carcinogenicity (ACGIH (7th, 2001)). Therefore, this substance was classified as "Classification not possible" for this hazard class.	No data available
Reproductive toxicity	No data available	No data available
Specific target organ toxicity(single exposure)	No data available	No data available

SAFETY DATA SHEET

rev. 8.0 Date of Issue 2013/10/16 Revised Date 2024/3/15

	other substances that could cause lung	
	pneumonia) were reported, but it is reported	
	that association with this substance is not	
	clear because they were also exposed to	
	damage (DFGOT vol. 12 (1999)).	
	However, there are cases where zirconium	
	was confirmed in granulomatous lesions in	
	5	
	the lungs of three, and extrinsic allergic	
	alveolitis was observed just in one. It is	
	reported that histological examination of the	
	lungs revealed "various stages of epithelioid	
	cell granuloma induced by foreign matter"	
	with foreign matter inclusions in giant cells	
	and fibrosis, and the principal component of	
	foreign matter is zirconium, and similar	
	changes were also found in skin, and	
	granulomatous lesions were observed in	
	mammary and axillary lymph nodes (DFGOT	
	vol. 12 (1999)).	
	As for experimental animals, it is reported	
	that toxic effects were not found in an	
	inhalation toxicity test using rats, rabbits,	
	dogs, guinea pigs, and cats (DFGOT vol. 12	
	(1999), ACGIH (7th, 2001)). It is also	
	reported that in a diet administration test	
	using rats, toxic effects were not observed	
	(DFGOT vol. 12 (1999)).	
	As above, because effects of this substance	
	cannot be denied completely in humans, the	
	substance was classified as "Classification	
	not possible."	
Aspiration hazard	No data available	No data available

SECTION 16 Other information

The Safety Data Sheet (SDS) has been prepared based on currently available materials, information and data, and may be revised based on new information. Further, the important points in the SDS are made for the purpose of normal handling. When handling the user product in a specialized manner, take the appropriate safety measures for the application or method. Further, Canon Optron Inc. has paid sufficient attention to the described contents of the SDS, but does not guarantee the accuracy of its contents.

The SDS prepared by our company includes all findings from our investigation for reference. Not applicable to all items listed.
